

# Siloam Road

The paved Herodian street at the northwest corner of the Temple Mount continues south along the Western Wall until it reaches the Pool of Siloam on the south end of the City of David. The Herodian street that ran from the north of the city along the Western Wall, under Robinson's arch, and down the eastern hill through the City of David until it reached the Pool of Siloam.

Herodian pavement stones from the first century. This style of pavement stone is seen in many places where streets from the days of the NT have been excavated. A good view of the alternating steps and the pavement stones. To the left is dirt that has not been excavated yet. To the right is a wall that blocks access to the rest of the street being excavated now.

The gutter under the street ran water out of the city. Jews hid here in 70 AD.
